PROFESSIONAL SUMMARY

Results-driven Software Engineer with 6+ years of experience designing and building scalable web applications and backend services. Skilled in leading cross-functional teams, improving system performance, and delivering high-quality products on schedule. Passionate about clean code, mentorship, and continuous learning.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Brightwave Technologies

San Francisco, CA | Jan 2022 – Present

- Led a team of 5 engineers to redesign the core checkout system, reducing page load time by 42% and increasing conversion rate by 8%.
- Architected a microservices migration from a monolithic Rails application, improving deployment frequency from weekly to daily.
- Mentored 4 junior engineers, establishing a code review framework that reduced production bugs by 30%.
- Collaborated with product and design teams to launch 3 major features used by over 500,000 monthly active users.

Software Engineer — NovaGrid Systems

Oakland, CA | Jun 2019 – Dec 2021

- Built and maintained RESTful APIs serving over 2 million requests per day using Node.js and PostgreSQL.
- Implemented automated testing pipeline that increased code coverage from 55% to 90%.
- Optimized database queries, reducing average API response time by 35%.
- Partnered with DevOps to migrate infrastructure to AWS, cutting hosting costs by 20%.

Junior Developer — PixelCraft Studio

Berkeley, CA | Jul 2017 – May 2019

- Developed responsive front-end interfaces using React and Redux for client web applications.
- Collaborated with designers to translate Figma mockups into pixel-perfect, accessible UI components.
- Fixed and triaged over 150 bug tickets across 4 client projects.

EDUCATION

B.S. in Computer Science — University of California, Berkeley

Graduated May 2017 | GPA: 3.7/4.0

SKILLS
